## CDC SUDORS Drug Overdose Data Overview

This interactive dashboard is based on the CDC’s SUDORS (State Unintentional Drug Overdose Reporting System) drug overdose fatality data. It provides an overview of drug overdose deaths across the United States by drug category, jurisdiction, time period, and demographic group. Use the filters to explore trends, geographic patterns, and population-level differences, and navigate through the pages for more detailed analyses.

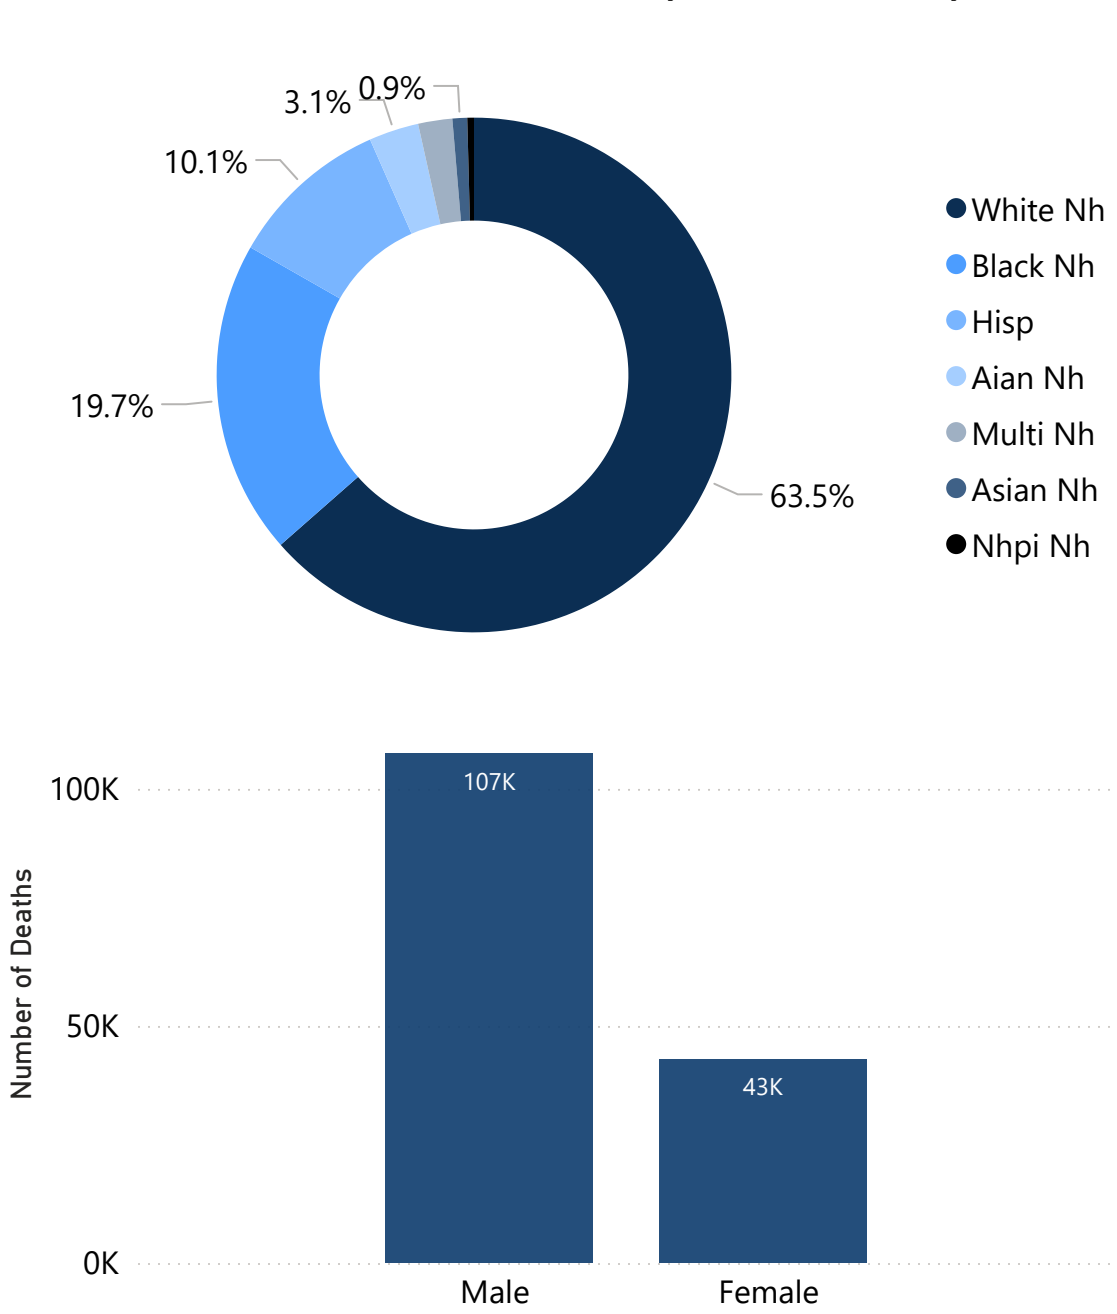

### How to use this dashboard

Use the filters above to explore overdose deaths by drug type, geography, time, and demographics. Select a drug to see how patterns change across jurisdictions and years. Navigate using the tabs above for deeper analysis.
